- PostgreSQL

PROJECT

CWK-NLU - INDIVIDUAL PROJECT

June 2023 - Present

- Build a website inspired by my university's course registration website using ReactJS, TailwindCSS. Use ExpressJS to handle the API already available through the proxy.
- Responsibility:
 - Design the UI/UX to make users have better experience.
 - Learn about Redux to manage the state of the application.
 - Create an intermediate server to handle requests and responses.
- Production: <https://nlu.huynhvanhuan.id.vn>
- Github: https://github.com/ankoi0310/cwk_nlu

MOVIE TICKET BOOKING - GROUP PROJECT

Feb 2023 - May 2023

- Aiming to build a application that allows users to book movie tickets online on multiple platforms using Flutter, Spring Boot, PostgreSQL.
- Responsibility:
 - Join the team as a Full-stack developer.
 - Learn how to use Firebase to handle authentication and storage.
 - Integrate Momo payment gateway into the application.
- Github:
 - https://github.com/ankoi0310/movie_ticket_booking_client
 - https://github.com/ankoi0310/movie_ticket_booking_admin
 - https://github.com/catabada/movie_ticket_booking_api

NLU - INDIVIDUAL PROJECT

Dec 2022 - Feb 2023

- The goal is to help students at NLU conveniently view and manage their timetable through a mobile application.
- Responsibility:
 - Being study and research about Flutter and Dart to build a mobile application.
 - Learn how to use Rive to create interactive UI for my app.
- Github: <https://github.com/ankoi0310/nlu>

SELLING COURSE WEBSITE - GROUP PROJECT

Oct - Dec 2022

- Aiming to build an intermediary website to sell a variety of courses from reputable institutions using ReactJS, Spring Boot and MySQL.
- Responsibility:
 - Join and develop the project as a Back-end Developer.
 - Integrate Momo and VNPay payment gateway into the application.
 - Managing team and lead them complete the project.
- Github:
 - <https://github.com/catabada/sales-course-fe>
 - <https://github.com/catabada/sales-course-api>
